emcdaniel@mbpce.com
703-641-9088

AGENDA

Registration/Networking:

7:30am - 8:00am

Presentation/Questions:

8:00am - 10:30am

Seating is limited.

This seminar is designed for contractors, developers, business owners, designers and others involved in the construction industry who want to learn more about the legal issues and risk management techniques surrounding the emerging area of Green/Sustainable Construction.

This educational and insightful program will explore the following topics:

1. Public bodies that require or provide incentives for Green Construction
2. Legal issues and risks particular to Green Projects
3. Contract drafting strategies and tips to mitigate the special risks encountered on Green Projects
4. Document and site control techniques for Green Projects
