- **Beverage:** Exclusive provider of patent services for a leading U.S. water and dispensing systems supplier, including patent preparation, prosecution, IP acquisitions, and technical agreements.
- **Gaming Systems:** Achieved favorable verdict in a complex patent infringement suit following multiple trials and appeals.
- **Telecommunications:** Patent assertions and defense in a patent infringement suit involving cellular technology, achieving a complete defense verdict.

## Innovative Solutions

- **Legal Project Management:** Optimize efficiency and predictability of high-volume patent prosecution portfolios.
- **Patent Technology Solutions:** Proprietary technology for patent portfolio management, providing clients with quick visual insights.
- **AI Expertise:** Over a decade of experience in AI-related IP strategy, compliance, and risk mitigation.

## Client Testimonials

“I have seen firsthand the dedication, expertise, and professionalism of this team. They have provided excellent legal counsel and have gone above and beyond to ensure that our needs are met ... Their commitment to us as their clients is truly exceptional, and it is evident in the quality of work they produce.”

“Seyfarth’s IP team have provided excellent counsel on countless matters, including many disputes... When it comes to intellectual property issues, you can count on them to know how to achieve the desired result.”

“The deep substantive legal knowledge, widely varied and long experience, and always creative strategic thinking have been invaluable assets to our internal team. Beyond this, the team possesses a very pragmatic, always responsive, and nicely calming professional manner, that is every bit as helpful to our organizational needs as their pure legal expertise ... My company and I are very fortunate to have Seyfarth’s IP attorneys as our main outside partner for all our legal needs.”
