

Corporate

Accolades from U.S. News & World Report and Legal 500

Recognized as a national top tier practice in various Corporate disciplines.

Our Practice

Our Corporate attorneys counsel companies, board of directors, and executives on routine challenges and are prepared to immediately respond to crisis situations. We're invested in our client relationships and take pride in understanding and proactively balancing the business, risk, and compliance issues that preserve the interests of their business and stakeholders. When sensitive issues arise, our lawyers serve as trusted counselors who offer reliable judgment and a roadmap to a speedy and successful conclusion. We bring extensive experience assisting private companies with corporate governance matters, including entity formations, mergers, conversions, dissolutions, and foreign qualifications. We routinely attend board meetings and draft and review corporate minutes and resolutions, act as transfer agents for private company stock transfers, amend charter documents and prepare shareholder and member notifications, structure and document internal corporate reorganizations, and implement corporate housekeeping projects. Seyfarth lawyers across the globe bring deep experience on matters related to:

- Boards of directors
- Standing and special board committees
- Corporate governance documents, policies, and procedures
- Stock exchange compliance
- Board and management issues
- Shareholder relations
- Responses to corporate control efforts
- Corporate governance guidelines of proxy advisory firms such as ISS and Glass Lewis

Our advice and counsel in the corporate space also extends to global matters, including advising on transactions in Latin America and elsewhere in the world

Representative Example

Represented a healthcare technology company in its \$5 million Series A equity financing with existing shareholders.
