

# 50 State COVID-19 Reporting Reference Guide

What Businesses and Facilities Need to Know About Reporting The Novel Coronavirus

Updated January 2022

As businesses across the country grapple with rising COVID-19 cases and a reduction in available staff, they must also continue to implement policies to keep their employees safe. However, despite best efforts and availability of vaccines, the possibility remains that an employee may show symptoms of COVID-19 or test positive for COVID-19 after they have returned to work (or have continued to work). In those situations, it is important for employers to know whether they have an obligation to contact state health authorities to report a COVID-19 positive case. Seyfarth has updated this 50-state survey of state-level public health reporting requirements identifying who is required to report COVID-19 cases to capture the most recent requirements and changes. Note that there may be county or other local reporting requirements, which are not captured herein, that are more stringent. This landscape is ever changing, so please be sure to follow up with your Seyfarth lawyer to ensure you have the most up-to-date and detailed information.

State	Mandatory Infectious Disease Reporting Rule Relating to Health Care Providers and Laboratories	Mandatory Infectious Disease Reporting Rule Expressly Relating to All Employers	What Employers are Mandatory Reporters	Other Notes
<b>AL</b> Alabama	Yes	No*	Physicians, dentists, nurses, medical examiners, hospital administrators, nursing home administrators, lab directors, school principals, and day care directors.	SARS-CoV2 test results must be reported by telephone to County or State health department within four hours of presumptive diagnosis, from providers. COVID-19 must be reported by 24 hours by phone, from labs. New strains of influenza virus must be reported within 24 hours. (2) Disease categories. The State Committee of Public Health designates that notifiable diseases shall be divided into three categories: (a) Immediate, extremely urgent - diseases/conditions notifiable within four hours of presumptive diagnosis; (b) Immediate, urgent - diseases/conditions notifiable within 24 hours of presumptive diagnosis; and (c) Standard - diseases/conditions notifiable within five days of diagnosis, unless otherwise noted. Said notifiable diseases are enumerated in Appendix I. Ala. Admin. Code 420-4-1-.03
<b>AK</b> Alaska	Yes	No	Health care providers and laboratories.	Must "immediately" report.
<b>AZ</b> Arizona	Yes	No	Health care providers (physician, physician assistant, registered nurse practitioner, or dentist) and administrators of a health care institution (facilities with medical services or other health-related services) or correction facility; an administrator of a school, child care establishment, or shelter, either personally or through a representative; per Arizona EO 30, hospitals must submit detailed reports every 24 hours; per Arizona EO 35, nursing care institutions, residential care institutions, ICF-1IDs, and medical group homes for individual with developmental disabilities must report.	Submit a report by telephone or through an electronic reporting system authorized by the Department within 24 hours after a case or suspect case is diagnosed, treated, or detected or an occurrence is detected.

State	Mandatory Infectious Disease Reporting Rule Relating to Health Care Providers and Laboratories	Mandatory Infectious Disease Reporting Rule Expressly Relating to All Employers	What Employers are Mandatory Reporters	Other Notes
<b>AR</b> Arkansas	Yes	No*	Physician, practitioner, nurse, superintendent, or manager of a dispensary, hospital, clinic, nursing or extended care home, and laboratory personnel examining human specimens.  Per Department of Health guidance, employees who are diagnosed with COVID-19 must be reported to the Arkansas Department of Health. Businesses should assist ADH staff in conducting contact tracing in their facilities.	Must "immediately" report.
<b>CA</b> California	Yes	Yes	Laboratories, physician and surgeon, a veterinarian, a podiatrist, a nurse practitioner, a physician assistant, a registered nurse, a nurse midwife, a school nurse, an infection control practitioner, a medical examiner, a coroner, or a dentist; anyone in charge of a public or private school, kindergarten, boarding school, or day nursery.  All employers shall immediately report to the Division any COVID-19 related serious illnesses or death, in connection with any employment; Employers shall provide any related information requested by the local health department.  Health care providers must report gender identity and sexual orientation of COVID cases (among other reportable diseases) to state dept of public health.	Effective 1/1/2021, all employers required to notify local public health agency of outbreaks.
<b>CO</b> Colorado	Yes	Yes*	Laboratories, health care providers, or public health staff.  Recent guidance from the Colorado Department of Public Health indicates that employers "must" report a "COVID-19 outbreak" in the workplace to their local health department.	The State's "protect Our Neighbors" order requires reporting "to the health department when there are 2+ employees with symptoms" of COVID-19, in the interest of preventing an outbreak." CDPH defines "outbreak" as: "Two or more people who are confirmed cases of COVID-19 in a workplace/facility...within 14 days"
<b>CT</b> Connecticut	Yes	No*	Health care providers; labs must immediately report positive COVID and SARS findings to the DPH.	Per CT EO 34, residential homes must provide daily COVID reports.

State	Mandatory Infectious Disease Reporting Rule Relating to Health Care Providers and Laboratories	Mandatory Infectious Disease Reporting Rule Expressly Relating to All Employers	What Employers are Mandatory Reporters	Other Notes
<b>DE</b> Delaware	Yes	No*	Physicians, laboratories, and other health care providers. In addition to those who are required to report notifiable diseases, the following individuals are requested and authorized to notify the Division Director or designee of the name and address of any person in the individual's family, care, employ, class, jurisdiction, or custody of control, who is suspected of being afflicted with a notifiable disease although no health care provider has been consulted: Every parent, guardian, householder; midwife; superintendent, principal, teacher, or counselor of a public or private school; administrator of a public or private institution of higher learning; owner, operator, or teacher of a child care facility; owner or manager of a dairy, restaurant, or food storage, food-processing establishment, or food outlet; superintendent or manager of a public or private camp, home, or institution; and director or supervisor of a military installation, military or Veterans Administration Hospital, prison, or juvenile detention center.	
<b>DC</b> District of Columbia	Yes	Yes*	Health care providers, veterinarians, or other persons in charge of a communicable disease case. Workplace Safety During the COVID-19 Pandemic Emergency Amendment Act of 2021 requires employers to adopt and implement workplace safety policies that follow the Mayor's Orders related to COVID-19 emergency.	D.C. Health asks employers to voluntarily report COVID-19 cases.
<b>FL</b> Florida	Yes	No*	Medical practitioners, laboratories, medical facilities, animal control personnel; "requires immediate reporting of suspected or confirmed cases and both positive and negative test results of Coronavirus (COVID-19) by physicians, hospitals, and laboratories."  Facilities shall require all tested staff and household members to notify the facility of the test results the same day the results are received. Upon staff or the household member receiving test results, documentation of the results must be provided to the facility.  Facilities shall keep copies of all staff and household member testing documentation on site.	

State	Mandatory Infectious Disease Reporting Rule Relating to Health Care Providers and Laboratories	Mandatory Infectious Disease Reporting Rule Expressly Relating to All Employers	What Employers are Mandatory Reporters	Other Notes
<b>GA</b> Georgia	Yes	No*	Physicians, laboratories, and other health care providers.	
<b>HI</b> Hawaii	Yes	No	Physicians, laboratory directors, health care providers.	
<b>ID</b> Idaho	Yes	No*	Physician, hospital or health care facility administrator, laboratory director, school administrator, persons in charge of food establishments, physician assistants, CNP, RN, school health nurses, infection surveillance staff, public health officials, coroners.  A person in charge of an eating or drinking establishment must report diseases and conditions to the Department or Health District as indicated in Section 050 of these rules and obtain guidance on proper actions needed to protect the public. (7-1-21)T	
<b>IL</b> Illinois	Yes	Yes*	Physicians, physician assistants, nurses, nursing assistants, dentists, health care practitioners, emergency medical services personnel, laboratory personnel, long-term care personnel; any institution, school, college/university, child care facility, or camp personnel; pharmacists, poison control center personnel, blood bank and organ transplant personnel, coroners, funeral directors, morticians and embalmers, medical examiners, veterinarians, correctional facility personnel, food service management personnel, any other person having knowledge of a known or suspected case or carrier of a reportable communicable disease or communicable disease death; the master, pilot or any other person in charge of any bus, train, ship or boat, and the commander, pilot or any other person in charge of any aircraft within the jurisdiction of the State.	690.361 Coronavirus, Novel, including Coronavirus Disease 19 (COVID-19), Severe Acute Respiratory Syndrome (SARS), and Middle Eastern Respiratory Syndrome (MERS) (Reportable by telephone immediately (within 3 hours) upon initial clinical suspicion of the disease)
